Hood's Sarsaparilla got so hungry that I had to eat five times a da I have now fully recovered. I feel well and arm well. All who know me marvel." D. M. Jondan, retired farmer, Edmeston, N. Y. Hood's Pills cure all Liver Ills, Bill cur, Jaundice, Indigestion, Sick Readache,

#### KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation.

and permanently curing constipation. It has given satisfaction to millions and

It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. coly, whose name is printed on every package, also the name Syrup of Figs. package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## "German Syrup" UDGE J. B. HILL, of the Superior

ourt, Walker county, Georgia, thinks enough of German Syrup to send us ve untarily a strong letter endorsing it. When men of rank and education thus use and recomnend an article, what they say is worth the attention of the public. It is above suspicion. "I have used your German Syrup," he says, "for west nave the says, "for my Coughs and Colds on the Throat rate exhibits of ores and minerals, and in gare full of the machine to our management of the machine to our management. and Lungs. emous Wealth in Gems and Minerals at the World's Fair.

the of Procious Merals from the West ern Blates and Diamonds in the Stough from South Africa—Odd Notes of Interest.

(Special Chicago Correspondence I There is In the various departments the world's fair enough mineral wealth exposed to the gaze of the thou visitors each day to furnish ransoms for several kings, and high-priced kings at that. Piled up in gilttering profusion in the different state exhibits in the nomeroth Mines and Mining building and it the state buildings of several of the western states there are gold and silver bearing ores enough to make a mountain of riches, and molded into various fo, as throughout the fair there is enough more of the recions metals to make a great many nen independently wealthy. Aside from this there is among the multitude of ex-hibits, in the form of watches, jewelry nd ornaments, an enormous amount of gold, silver and precious stones, sur-passing in quantity and richness any-thing of the kind ever before placed on exhibition in this country.

People who have barely enough of the "needful" to keep them on a peace-footing with the butcher, the baker and the rest stroll about among the golden ores with as much unconcern as if they were gazing on so much worthless rock. There, close to their hands, are riches enough to enable them to retire per-

ZULU GUARDS.

and they pass it by with but little more than a passing glance. Of course they couldn't make away with any of it if they wanted to, as there are always plenty of lynx-eyed guards about, but it seems strange that so much loose wealth does not attract more attention

than it does. In the Montana section of the Mining bullding the other day an oldish couple pansed before the silver statue of Juslars on a pedestal of gold worth two Morse harnessed it and made it obedient

anything else, and under these they nave their native trousers, if such they

The method of clouving the diamonds to prepare them for cutting is shown by drilled workmen, and then the dia-monds are pollabed after being cut. All the processes are carried on in full view of the andlence, for whose especial benefit elevated platforms have been erected about the maculaery. Thus the production of diamonds, from the mining of the blue earth in which
